

Online services:

You might not know about all of the online services that we have, therefore here a list:

- You can put your books on hold with your library card
- You can renew a book, as long as it does not have holds by other patrons
- You can order books from other libraries, and they will get shipped here, free of charge as long as you can find them in our system.
- You can change your personal info on your account, for example if you get a new phone
- You can download e-books to your electronic devices; there is a limit of 5 checkouts, and 5 holdings at the same time.
- There are links to services, for example the seasonal tax papers, and you can download the tax forms you need.

Check it out, there might be more links added or changed over time, make sure to visit the website frequently for updates.
